

November 10, 1970

Professor John Donovan
Project MAC
Massachusetts Institute of Technology
Cambridge, MA 02139

Dear Professor Donovan:

This is to follow up on Professor Hemmerle's comments at our luncheon and invite you to Kingston to give a seminar. This seminar could be on any advanced topics that interests you. We currently have twenty-five graduate students enrolled in our Master's program and I am sure other departments on campus would be interested in hearing you speak.

Sincerely yours,

Leonard J. Bass
Assistant Professor
of Computer Science
